## Domestic Terrorism in the United States

2009-2015

You have a better chance of dying from a refrigerator falling on you than of an Islamist terror attack in the United States

## Or of being shot by a toddler There were 5 shot on American soil by toddlers in 2013, 3 shot by Islamic extremists that same year

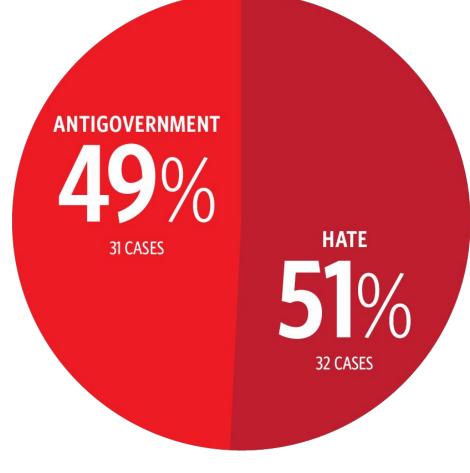

## From 4/1/2009 - 2/1/2015

A domestic terror attack (or foiled attack) occurred on average once every 34 days

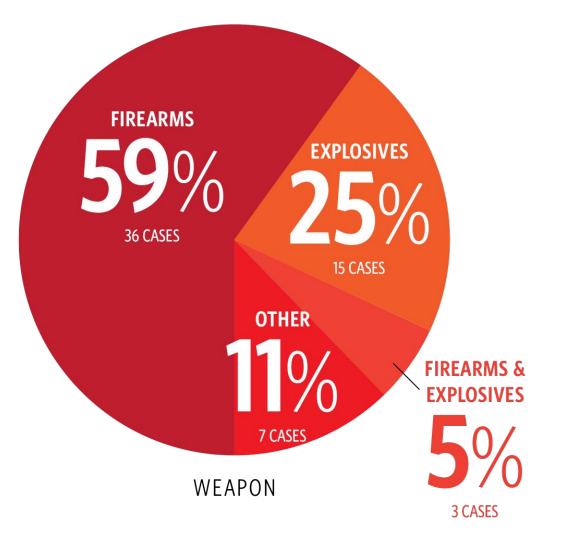

90% were committed by one or two people

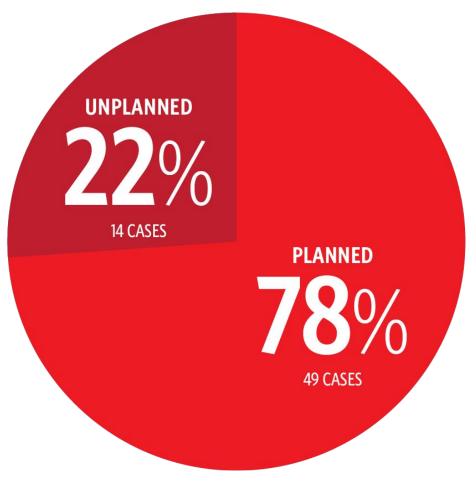

## Since 9/11

More people have been killed in America by domestic terrorists than by "jihadists"
